

# Skin cleansing

Extreme soiling

## **PEVALIN SPEZIAL**

This highly effective high-grade **hand cleansing cream** enables easy removal of stubborn or highly adhesive soiling.

### Properties

*PEVALIN SPEZIAL* is an oil-in-water emulsion.

*PEVALIN SPEZIAL* cleanses the skin deep into the pores, gently and offers lasting skin protection and excellent refatting.

*PEVALIN SPEZIAL* easily removes stubborn or highly adhesive soiling, such as paints, synthetic resin and gravure printing inks as well as oil, fats, tar, bitumen, polyurethane foams, graphite, soot, resins, glues and sealants, etc.

### Composition

*PEVALIN SPEZIAL* is based on raw materials that are dermatologically and toxicologically safe.

*PEVALIN SPEZIAL* contains cold-pressed natural oils and soothing lanolins. Water-insoluble, fragrance-free cleansing components integrated in the oil-in-water emulsion ensure gentle removal of the soiling. There is no direct contact between the dirt-removing substances and the skin. The surfactants are biodegradable and fulfil the requirements of the OECD screening test.

## **PEVALIN SPEZIAL**

Ideal for painters

*PEVALIN SPEZIAL* contains high-grade, skin-friendly synthetic abrasives that enhance the cleansing effect.

These abrasives do not block waste pipes.

*PEVALIN SPEZIAL* is silicon-free.

*PEVALIN SPEZIAL* has been dermatologically tested.

*PEVALIN SPEZIAL* is proven due to many years' use in practical application.

### Application

Rub *PEVALIN SPEZIAL* (without water) well into dry and dirty hands until the dirt is completely dissolved. Rinse off with water or wipe off with a towel.

*PEVALIN SPEZIAL* cleanses the skin deep into the pores without using water.

A little *PEVALIN SPEZIAL* goes a long way. Approx. 3 ml (one dose from the dispenser) is sufficient to clean your hands thoroughly.

# Hautreinigung

extreme Verschmutzung

## Product description

Pale yellow oil-in-water emulsion in a cream paste, with an orange scent.

Contains PU abrasives.

pH-value: 7.5 - 7.9

Density: Approx 0,84 g/cm<sup>3</sup> (20° C)

## Statutory requirements

*PEVALIN SPEZIAL* is subject to the German Cosmetics Ordinance (KVO) and the Foodstuffs and Commodities Act (LMBG). All cosmetics products in the *PEVA* range are manufactured in accordance with GMP (Good Manufacturing Practice) and are subject to microbial quality assurance checks.

## Storage information

*PEVALIN SPEZIAL* can be stored in closed original containers at room temperature for at least 18 months and in tubes for at least 30 months. The contents must be used within 12 months of the tube being opened.

*PEVALIN SPEZIAL* must be protected against frost.

## Skin care information

When working with noxious substances, a suitable skin protection agent should be applied before starting work (e.g. *PEVAPERMI* universal skin protection lotion). After finishing work, a suitable hand care agent should be rubbed into the skin regularly in order to aid regeneration (e.g. *PEVALIND* skin care lotion, rich in active ingredients).
