

# Skin cleansing

Extreme soiling

## **PEVALIN CLASSIC**

This kind, high-grade **hand cleansing cream** enables the gentle removal of highly adhesive soiling.

### Properties

*PEVALIN CLASSIC* is an oil-in-water emulsion.

*PEVALIN CLASSIC* cleanses the skin deep into the pores, gently, and offers lasting skin protection and excellent refatting.

*PEVALIN CLASSIC* removes highly adhesive soiling such as oils, fats, tar, bitumen, ink, etc.

### Composition

*PEVALIN CLASSIC* is based on raw materials that are dermatologically and toxicologically safe.

*PEVALIN CLASSIC* contains natural oils and soothing lanolins. Water-insoluble, fragrance-free cleansing components integrated in the oil-in-water emulsion ensure gentle removal of the soiling. There is no direct contact between the dirt-removing substances and the skin. The surfactants are biodegradable and fulfil the requirements of the OECD screening test.

*PEVALIN CLASSIC* does not contain any abrasives.

*PEVALIN CLASSIC* is silicon-free.

*PEVALIN CLASSIC* has been dermatologically tested.

*PEVALIN CLASSIC* is proven due to many years' use in practical application.

### Application

Rub *PEVALIN CLASSIC* (without water) well into dry and dirty hands until the dirt is completely dissolved. Rinse off with water or wipe off with a towel.

*PEVALIN CLASSIC* cleanses the skin deep into the pores without using water.

A little *PEVALIN CLASSIC* goes a long way. Approx. 3 ml (one dose from the dispenser) is sufficient to clean your hands thoroughly.

# Skin cleansing

## Extreme soiling

### Product description

White to light beige oil-in-water emulsion in a cream paste.

pH-value: 7.5 - 7.9

Density: Approx. 0.87 g/cm<sup>3</sup> (20°C)

### Statutory requirements

*PEVALIN CLASSIC* is subject to the German Cosmetics Ordinance (KVO) and the Foodstuffs and Commodities Act (LMBG). All cosmetics products in the *PEVA* range are manufactured in accordance with GMP (Good Manufacturing Practice) and are subject to microbial quality assurance checks.

### Storage information

*PEVALIN CLASSIC* can be stored in closed original containers at room temperature for at least 18 months and in tubes for at least 30 months.

The contents must be used within 12 months of the tube being opened.

*PEVALIN* must be protected against frost.

### Skin care information

When working with noxious substances, a suitable skin protection agent should be applied before starting work (e.g. *PEVAPERIM* universal skin protection lotion). After finishing work, a suitable hand care agent should be rubbed into the skin regularly in order to aid regeneration (e.g. *PEVALIND* skin care lotion, rich in active ingredients).
